- Tableau
- Excel

PROJECTS

[RESUME SCREENING TOOL ↗](#)

Developed an AI-powered resume screening system using Flask, Python, spaCy, and FuzzyWuzzy to automate candidate evaluation through NLP-based resume parsing and skill matching.

[VOICE COMMAND CALCULATOR ↗](#)

Developed a voice-controlled scientific calculator using Flask, Python, SpeechRecognition, pyttsx3, and integrating real-time speech-to-text conversion and audio feedback for hands-free arithmetic and trigonometric operations.

[PORTFOLIO WEBSITE ↗](#)

A dynamic portfolio website showcasing my skills, projects, and achievements, designed using HTML, CSS, Javascript and AppsScript to complement my resume.

[SCHOOL WEBSITE ↗](#)

Designed and deployed a responsive school website using HTML, CSS, JavaScript, and Bootstrap, with features like announcements, gallery, and contact forms, hosted on GitHub Pages for seamless public access.

TRAININGS

Data Structures & Algorithms With C++
April 2025 - Present
PW Skills, Virtual

Fullstack Web Development
Jan 2024 - May 2024
Udemy, Virtual

ADDITIONAL DETAILS - CERTIFICATIONS

- Python {Simplilearn}
 - Artificial Intelligence {Infosys Springboard}
 - PowerBI {InfosysSpringboard}
- FullStack Development {Udemy}
 - DBMS {InfosysSpringboard}
